ABOUT US

Specialty Construction Supply has been in the Road Construction industry for over 25 years, specializing in products and services to assist contractors with their construction needs. Our trained staff regularly helps customers with problems ranging from estimating the cost of a sealcoat application on a parking lot, to drafting traffic control plans for roadway construction. Our goal is to meet the needs of contractors by providing goods and services in a one stop environment. By providing technical assistance, as well as consulting services, we inform Engineers and Construction Managers of the most up to date, efficient construction practices. We see the Highway Construction Industry as affecting not only the roadway, but also the environment around the construction area. Specialty provides products to assure limited effect on the environment during and after the construction.

Our vision... To see the changing needs in the construction industry and provide solutions.

Specialty Construction Supply. We specialize in solutions.
